ROCHESTER, Mich.--(BUSINESS WIRE)--[OneStream Software](#), a leader in Corporate Performance Management (CPM) solutions for mid-sized to very large enterprises, has been scored in six use cases evaluated by Gartner in the 2019 Critical Capabilities for Cloud Financial Close Solutions¹ report.

OneStream Software was recognized with the highest scores in the Global Organization, Large Organization and Upper Midsize Organization use cases and had one of the highest three scores in five of the six use cases.

The Critical Capabilities report covers 10 vendors and providers' product and service offerings. It is a companion report to the 2019 Magic Quadrant for Cloud Financial Close Solutions², where [OneStream Software was named a Leader](#).

"A growing list of customers, including some of the world's largest enterprises, are digitally transforming finance with OneStream to become more agile and strategic. With our unified platform they streamline their financial close, consolidation and reporting cycles; align financial and operational planning in the same application and leverage built-in analytics and dashboards to make more informed business decisions with confidence. We believe our scores and rankings in Gartner's Critical Capabilities for Cloud Financial Close Solutions validate our ability to address the needs of a wide variety of organizations from mid-sized companies to large and global organizations with diverse business units, sophisticated organization structures, and complex financial reporting requirements," said Tom Shea, CEO of OneStream.

By unifying financial consolidation, reporting, planning and analysis in a single platform, OneStream customers are eliminating multiple point solutions and realizing significant savings in time and costs. Last month, OneStream extended its [SmartCPM™ platform with built-in governed analytics](#) that bring together financial and detailed operational data for improved business insights and also introduced new BI dashboards and visualization tools.
